

Please do not change the current Indiana law which regulates tele-marketing calls. Our law has reduced the number of tele-marketing calls that I receive a week from 1-2 dozen to almost none. These calls are such a nuisance and greatly infringe on quality family time. I have had telemarketers call as late as 9:30 pm which is very annoying. The people of Indiana do not wish their law changed. Maybe you should look more closely at our law and adopt it! This law has been a huge success here. Thank you, Chris Holtzleiter
